Please give me the bad dates in June too.

We're pretty open all of May (early June gets a little problematic, though).

All good. Can we start thinking about dates?

Ok. Will discuss with my project officer (Nancy Parrotta) and will get you timing for an amendment. I am hoping that it could be processed within a week or two.

You should probably add two trips to be safe. But this one will be in early May I think. There may well be a support for public hearing meeting trip too. But for this trip for site visit and discuss AE packages, two long hot days in Bakersfield. Who can resist.

This current work assignment ends in June I believe. I should be able to do an amendment to add travel fairly quickly.

Michele... do you think this will be one trip, or could be multiple trips for other future AEs?

Thanks,

Lisa

One more thing, Mike would like Cadmus to come out here, maybe in a month or so, to meet with State officials and tour some sites. Probably Bakersfield area (sorry about that ;). We can

start looking at calendars. Early May. Please let me know availability and if this needs to be written into the SOW then we need to do that.

Hi Lisa, and Cadmus folks,

We met this morning with Mike Montgomery to update him on the AG meeting from last Friday. David is going to do another pass through my draft letter to the state with our comments and he will send it back out for review. If he does not send it to you directly I am going to send it to you to have Cadmus do a double check that its 1) comprehensive and 2) correct, in capturing what else we need for the supplemental package for the exemption

request.

Also, they handed us a new spreadsheet of AE packages they are expecting to submit to EPA. There are 25 coded in green color, which they think will come to us by the end of the summer approx. Some of course will come sooner, but this is the universe of packages. I've made a copy for you and will send to you by pouch but I will also mail to Shari/Anna but I need a mailing address please. Thanks!
